
OBJECTIVE

I'm Software Engineer with 7+ years of expertise in FrontEnd and Backend development. Proficient in technologies including React, React Native, Electron, Redux, NextJS, GraphQL, NodeJS, TypeScript, Docker, Serverless, MongoDB, SQL, K8S, and more. Passionate about technology, electronics, IoT development, 3D modeling, and 3D printing.

EXPERIENCE

Remote
Jun 2021 - Present

Senior Software Engineer

Evernote

- Actively contributed to the development and maintenance of Evernote's mobile and desktop apps using React, React Native, Typescript, Electron, and GraphQL.
- Worked on backend services with NodeJS, Typescript, Express, Docker, K8S, and gRPC.

Remote
Jan 2019 - Jun 2021

Frontend Software Engineer

Fleek

- Developed a web app for coding, testing, and deploying smart contracts using React, Redux, NodeJS, Blockchain, Smart Contracts, GraphQL, web3, Docker, and Electron.
- Worked on a Dropbox-like desktop app for storing encrypted files on a blockchain using Electron, React, Redux, gRPC, Docker, Golang, and Textile.
- Contributed to the development of fleek.co, a web app for easy deployment of web3 apps using React, Redux, GraphQL, Docker, NodeJS, Typescript, and Textile.

Santiago, Chile
Feb 2018 - Jan 2019

Frontend Software Engineer

ComparaOnline

- Contributed to the development of the e-commerce platform comparaonline.com, using React, Redux, RxJS, NodeJS, GraphQL, Redis, MongoDB, Typescript, Microservices with NodeJS, Micro-Frontends, and Webpack.

Santiago, Chile
Jun 2017 - Jan 2018

Software Engineer

Groupon Latam

- Worked in development of the e-commerce platform for Groupon Latam, leveraging ReactJS, RxJS, Redis, MongoDB, MySQL, REST API, AsyncJS, and Microservices in NodeJS.

Santiago, Chile
Aug 2016 – May 2017

Software Engineer

Borealis

- Developed several web applications and mobile apps for diverse clients, utilizing REST, NodeJS, Laravel, PHP, Angular, Ionic, MySQL, and PostgreSQL.

Santiago, Chile
Jan 2015 – Jan 2017

Freelance Developer

ASCOMED

- Developed a web app for ASCOMED company to manage clients and payments information, deployed on the client's server. Technologies used: NodeJS, PHP, MySQL, and Docker.

Santiago, Chile
Jul 2011 – Jun 2016

Accountant Analyst

Becton Dickinson and Company

- Worked as an Accountant Analyst, responsible for treasury and expense management tasks.

Santiago, Chile
Dec 2009 – Sep 2011

Accountant Analyst

Capgemini

- Worked as an Accounting Analyst, responsible for fixed assets records and related accounting tasks.

EDUCATION

Santiago, Chile
2015

Ingeniería Informática, mención Desarrollo de Sistemas

Instituto Profesional AIEP

Awarded best student of Ingeniería Informática mención "Desarrollo de Sistemas Sede BUS 2016" career.

Santiago, Chile
2009

Técnico en Contabilidad

Instituto Superior de Comercio N° 2

Graduated as a medium level accountant.

SKILLS

- GIT
- Javascript: (React.js, Redux, GraphQL, Webpack, Node)
- Docker
- Serverless
- Typescript
- React Native
- Electron
- NoSQL
- SQL
- GraphQL

LANGUAGES

English

Level: Spoken

PROJECTS

Developed the AscomedSys web application for Ascomed Company, enabling management of payment information, medical staff, patients, and medical appointments. Deployed the application on the client's servers using Docker. Used PHP, NodeJS, JavaScript, MySQL, and Docker in the development process.
